

# Ryan Koch

---

## SKILLS

Hands on experience coding in languages including JavaScript, TypeScript, Ruby, and Python

Created and deployed web applications using frameworks such as React, React Native, Ruby on Rails, Angular, and NodeJS ([Github here](#))

Used version control/Git on a daily basis while completing assignments and projects with a team of developers

## EXPERIENCE

### **Indicio, San Diego, CA** — *Mobile Developer*

July 2021 - PRESENT

- Used React Native skills to implement new features and design clean and intuitive mobile UI / UX
- Contributed to open-source projects alongside government organizations and the Linux Foundation to advance technology in digital identity and verifiable credentials

### **Doctor Multimedia, San Diego, CA** — *Web Developer*

January 2020 - October 2021

- Managed tasks in a ticket managing system, prioritizing them by urgency, turn-around time, and contribution to revenue streams
- Worked on a team of developers following style guidelines to make quick and effective web design updates

### **The VanLife App, San Diego, CA** — *Mobile Development Intern*

SEPT 2020 - December 2020

- Along with the other intern, had ownership over the renovation of the team's admin dashboard
- Learned and worked independently to get up to speed with the Angular framework and Firebase/Firestore back-end
- Wrote functioning code for an Ionic app that included a working search bar, edit form, and the population of business metrics/analytics

### **24-7intouch, Orlando, FL** — *Quality Manager*

JAN 2017 - DEC 2018

- Hand selected for a pilot role to renovate our departments approach to quality
- Implemented new processes and coaching techniques that increased average monthly quality evaluations from 190 to 2131 and decreased QA errors by 62% within 6 months
- Led a department of over 100 employees and influenced measurable improvements in performance

## EDUCATION

### **LEARN Academy, San Diego, CA** — *Full Stack Web Development Bootcamp 2020*
